

Transforming Learning Spaces

Bonton

Bonton Technomake Pvt. Ltd. has been a pioneer in the design and manufacture of innovative furniture systems since 1994. With a commitment to excellence and sustainability, we provide high-quality, customizable furniture solutions for a diverse range of applications, including educational institutions, offices, auditoriums, and more.

Certified with ISO 9001-2015, ISO 14001-2015, ISO 5001-2018, ISO 50001-2018, BIFMA, IGBC, AIOTA, GRIHA, and Green Pro, we ensure that our products meet the highest standards of quality, environmental responsibility, and safety.

Our extensive product range is designed to meet the unique needs of each space, from institutional classrooms and libraries to modern office workstations and collaborative spaces. At Bonton Technomake, we combine functional design, as solutions that transform spaces into places of inspiration and efficiency.

Bonton Factory Premises - Land spread approx 4 Lac sq ft & covered area 2 Lac sq ft

Vision

To become the market leader in educational and office space solutions, achieving a 10% domestic market share and establishing a global presence, driven by innovation, design excellence, and sustainable practices.

Mission

Our mission is to build a holistic ecosystem and minimize the market fragmentation for educational and office space solutions by enabling stakeholders and delivering well-researched, best-in-class design solutions focused on ergonomics, sustainability, and optimum cost-efficiency.

Values

Human-Centricity by Design

We design for people—enhancing comfort, focus, and well-being through every product we create.

Systems Thinking & Spatial Harmony

We create integrated environments where furniture, technology, and behavior align into seamless, high-performing ecosystems.

Precision Engineering at Scale

We combine design excellence with industrial rigor to deliver durable, consistent, high-performance solutions at scale.

Radical Sustainability

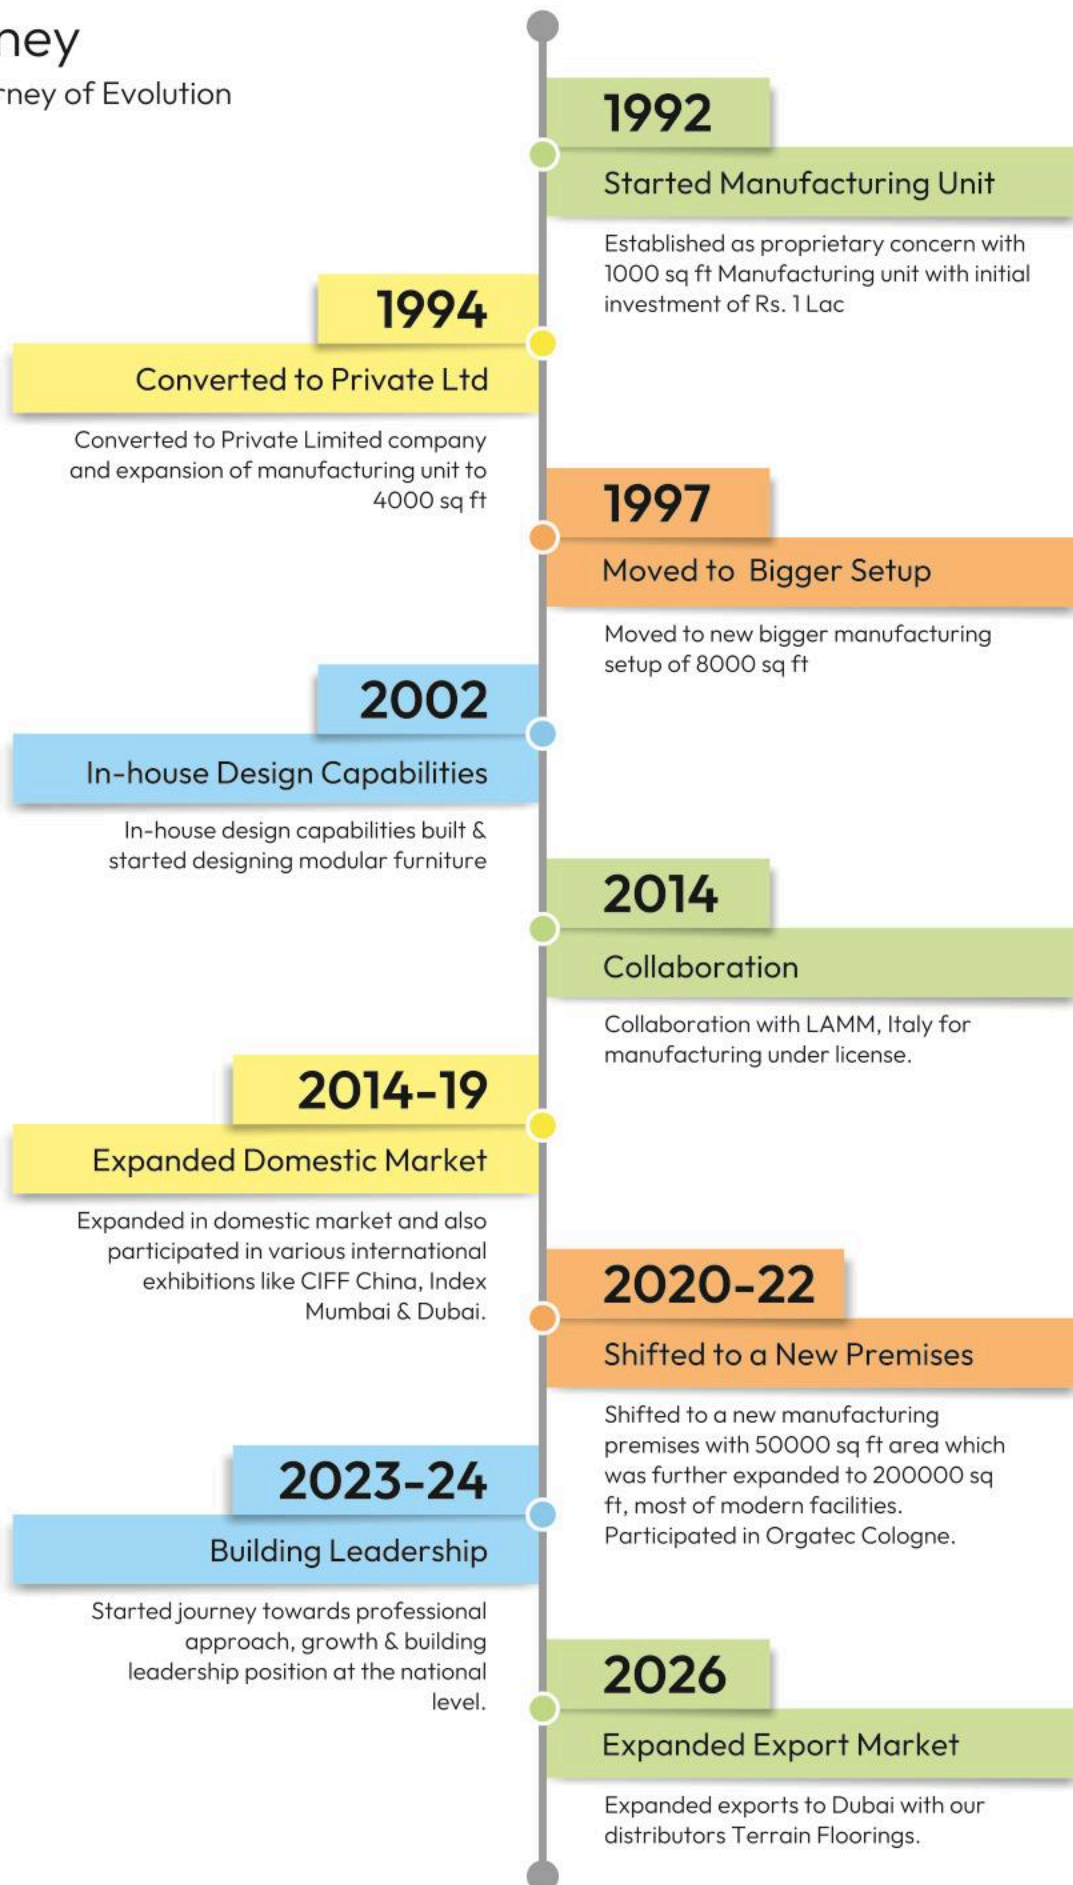

We ensure responsible growth through ethical sourcing, circular design, and minimizing environmental impact across life cycles.

Insight-Led Agility

We turn deep customer insights into adaptive solutions, staying agile to evolving needs in work and learning environments.
