ABOUT US

Foam Fit is committed to creating innovative safety protection solutions designed to reduce the risk of impact-related injuries in residential, educational, healthcare, commercial, and recreational environments. Our product range includes wall protectors, pillar guards, corner protectors, finger guards, edge protectors, and other safety cushioning systems for both indoor and outdoor applications.

Manufactured using high-quality, non-toxic, and environmentally responsible materials and other specialized impact-absorbing safety materials.

Foam Fit delivers reliable protection without compromising on quality, functionality, or design creating safer environments for people of all ages.

Key Features & Benefits

Ideal for childcare centres, schools, playgrounds, & pool areas

Suitable for indoor & outdoor use

Bite-resistant, scratch-resistant surface

Shock-absorbing & impact resistant

Durable polyurethane integral foam with closed-skin finish

Easy installation using silicone adhesive

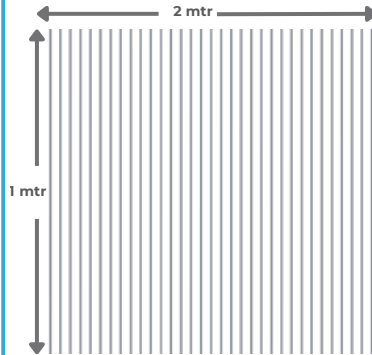

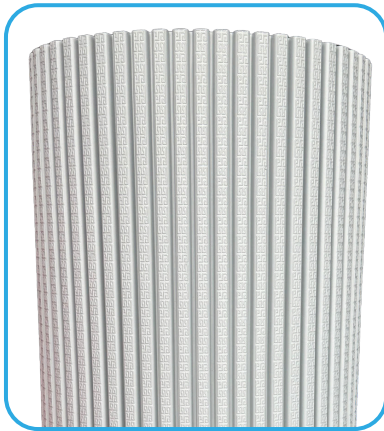

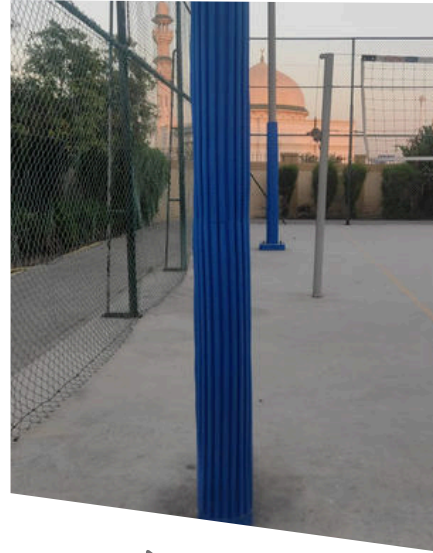

Note:

Outdoor use may reduce product lifespan and affect adhesion due to weather exposure.

FOAM WALL PADDING

Foam wall padding is a type of soft, cushioned material used to cover walls for various purposes, such as safety, soundproofing, and aesthetic enhancement. The foam provides impact resistance, reducing the risk of injury, and can also help with sound absorption.

Key Features & Benefits

Ideal for childcare centres, schools, playgrounds, & pool areas

Suitable for indoor & outdoor use

Protects walls, doors, and skirting from impact caused by swinging doors.

Manufactured from high-quality polyurethane for superior strength.

Simple placement allows quick installation without complicated fittings.

Easy to clean and maintain

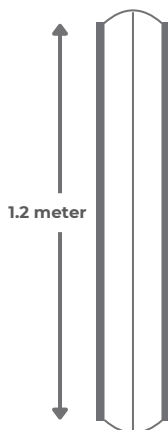

Note:

Outdoor use may reduce product lifespan and affect adhesion due to weather exposure.

FINGER GUARDS

FoamFit Finger Guards provide discreet, gap-free protection against finger injuries caused by door hinges. Made from durable transparent plastic, they are easy to install, clean, and maintain without damaging the door. Ideal for homes, schools, nurseries, and daycare centers.

Key Features & Benefits

Wide, gap-free protection helps cover exposed hinge and pinch areas.

Helps prevent children from trapping their fingers in door hinge gaps.

Strong adhesive backing allows quick installation without damaging the door.

Manufactured from high-quality durable plastic

Simple placement allows quick installation without complicated fittings.

Easy to clean and maintain

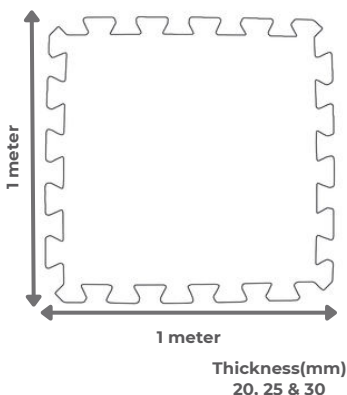

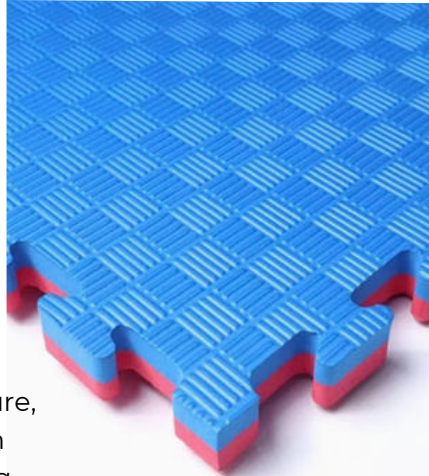

Note:

Outdoor use may reduce product lifespan and affect adhesion due to weather exposure.

FOAM MATS

FoamFit Foam Mats are lightweight, shock-absorbing designed to provide a soft, cushioned surface for play and exercise. The interlocking puzzle design creates a secure, seamless floor that helps reduce impact from falls and provides comfortable support during active movement.

TECHNICAL DETAILS
